*10 MONTH PERIOD

TO OUR STOCKHOLDERS:

The past year was again one of substantial progress for our Company. Sales for the fiscal year 1961-62 were \$116,141,949 — up from \$108,281,236, a gain of 7% over the previous year. Profits were \$4,407,469 — up from \$3,814,410, a gain of 15%. Both dollar figures represent a new record.

Earnings per share were 91¢ as compared with 79¢ in the previous period (after adjusting the previous period for the 1% stock dividend and the stock split).

Public preference for Smirnoff Vodka, the Company's principal product, continued to manifest itself through increased sales. Substantial increases were also noted for the Company's entire line of bottled cocktails and during the year the Company introduced the Heublein Scotch Sour. Priced with the other 10 cocktails in the line, the Scotch Sour shows a fine potential. Both Smirnoff Vodka and Heublein Cocktails received strong advertising support and it is the Company's intention to expand its promotional efforts for these lines during the coming year in order to develop further the dominant position they now enjoy.

Internationally, Smirnoff Vodka has made important gains in the past year. Details for this operation will be found on page 8 of this report.

The Heublein Food Division is now making a significant contribution to net profit. Sales of A. 1. Steak Sauce again increased, showing a 31% gain over last

HEUBLEIN INC.

year. After careful market testing, the product was given extensive day time television support which has produced remarkable results. Also, sales of Escoffier Sauces and other products made by Escoffier, Ltd., of England, the company we acquired in 1961, fulfilled expectations for the year with a satisfactory gain.

Fred R. Nye, General Manager of our Timely Brands Division was appointed in January to the newly created post of General Manager of both the domestic and imported food divisions of Heublein.

The Company plans to divest itself of the Andersen Soups product line and has entered into an agreement to sell this business to Tillie Lewis Foods, Inc., of Stockton, Calif. With our other products in national distribution, it was felt that we were not organized operationally to exploit a regional product on the most profitable basis.

Stockholders voted at the annual meeting of October, 1961, to split the stock three-for-one, increase the authorized common stock to 10,000,000 shares, \$1 par value from 2,000,000 shares, \$5 par value. They also voted to provide for 500,000 shares of cumulative preferred stock; to eliminate preemptive rights; and to increase the number of shares allocated for future stock options. Subsequently, the Board acted to increase the cash dividend by 20% and at the meeting of May 3rd, 1962, the Board declared a 1% stock dividend.

Since July 9, 1962, Heublein shares have been traded on the New York Stock Exchange. This action was consistent with the Board's intention ever since Heublein stock was initially offered to the public.

Mr. Ralph A. Hart, elected President of Heublein, Inc., as announced in last year's report, assumed office on June 1, 1961. Two new vice presidents were elected in July, 1962 and an assistant controller was appointed. The vice presidents are Richard F. Nelson, Production Manager and Dr. John B. Rehm, Research Director. John P. Willis is the new Assistant Controller.

On July 1, 1962, Heublein, Inc., became sole U.S. importers of Bisquit cognacs, made by the world famous firm of Bisquit Dubouché and Co., Jarnac, France. The line consists of Bisquit Three Star, V.S.O.P., Napoleon Fine Champagne Cognac and Vieille Grande Fine Champagne Cognac.

The fine quality of Heublein products is maintained and enhanced by a program of active research. In addition to the quality control laboratories in Hartford and Menlo Park, the Company maintains a product research department whose

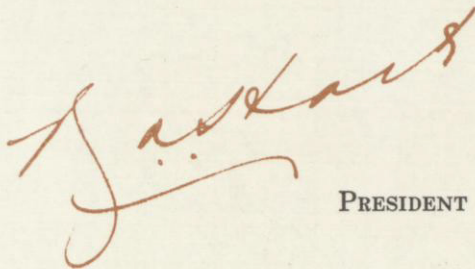

people constantly strive to improve Heublein products, evaluate those of competitors and occasionally use the services of outside research firms for special data.

Looking to the future, Heublein this year instituted a college recruitment and training program. Senior executives have called upon college campuses and interviewed a large number of potential candidates. In the past year, five recruits have started the program which incorporates the best and most modern practices in executive development.

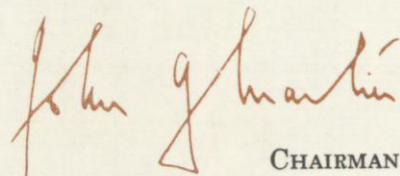

Forecasting, the Company looks toward continued progress in sales and earnings aided by intensive promotion of its many products, particularly Smirnoff Vodka, Heublein Cocktails, A. 1. Steak Sauce, Harvey's Sherries and Ports and Bell's Scotches.

Opportunities for further growth may be found in acquiring new product lines and companies. Such acquisitions will be considered, however, only if they conform to a profit pattern and growth potential equal to or better than that experienced by Heublein to date.

The record of the past — satisfying as it has been — is exceeded by our enthusiasm and determination for the period ahead. This extends to all the men and women of the Heublein organization and its distributors, aided by the continuing confidence of our customers and the interest and support of our stockholders. We earnestly ask each stockholder to use Heublein products and we recommend them with full confidence as being the finest of their various types. We wish to express our appreciation to all who have contributed to the important results achieved in the past and to our growing future.

HEUBLEIN INC.

SMIRNOFF INTERNATIONAL

In addition to operations in all 50 states in the U. S., Heublein products are known throughout the world.

The pattern of increase in the popularity of vodka in the U. S. pioneered in the U. S. by Smirnoff, is emerging throughout the free world. Currently, Smirnoff Vodka is made under licensing arrangements in 15 foreign countries. Additionally, Smirnoff Vodka is shipped to more than 100 foreign countries, and is the world's largest selling vodka.

During the past year, production of Smirnoff Vodka was started in Japan, New Zealand and Venezuela. In Japan it is made by The Nikka Whisky Distilling Co., Ltd., in New Zealand by Gilbey's Limited and in Venezuela by Cinzano, S. A., all under the exacting specifications

and high quality required in Heublein's two U. S. plants, Hartford, Connecticut and Menlo Park, California.

It is expected that sales of Smirnoff Vodka abroad will increase substantially over the next few years. In Scotland, for example, Smirnoff Vodka has made great gains with sales in that country approaching 70,000 cases a year. Currently, Smirnoff Vodka sales in Scotland are 250% ahead of the same period two years ago.

The other 12 countries in which Smirnoff Vodka is produced are Argentina, Australia, Brazil, Canada, England, France, Germany, Italy, Mexico, Spain, South Africa and Southern Rhodesia. In addition, Smirnoff Vodka is being bottled for distribution in Belgium, Holland and Switzerland.

Smirnoff Vodka blends smoothly with just about anything that pours. Pictured here are a few of the great vodka drinks pioneered by Smirnoff which have dramatically changed the drinking habits of America: Vodka Gimlet, Screwdriver, Vodka Martini, Bloody Mary, Vodka Collins and the newest, the Vodka Sour.

NEVER GAMBLE WITH A STRANGER AT A BAR! Even people who wouldn't dream of having any vodka but smooth, flawless Smirnoff® in their homes are inclined to become careless when ordering at a bar. They *want* Smirnoff. They *expect* Smirnoff. But they fail to *specify* Smirnoff. So what they're likely to be served is a lesser vodka for their money. Don't take the gamble. Command Smirnoff by name. Insist! Persist! Resist anything else!

it leaves you breathless!

Smirnoff®

THE WORLD'S LARGEST SELLING VODKA

Domestic Liquors (above)

In addition to Smirnoff, Heublein markets two other quality vodkas, Relska, which is in the middle price range and Popov Vodka which is in the lower price category. Both these brands made good progress in the past year. Heublein Ready-to-Serve Cocktails enjoyed another excellent sales year, with Milshire Gin, Heublein Dry and Sweet Vermouths and Heublein Cordials also showing good gains.

Imported Liquors (below)

In keeping with the Heublein tradition of giving the public the best value for its money, your company is marketing "Bell's 6", a six-year-old scotch whisky, at the same price as competitive four-year-old whiskies. This dramatic development is receiving widespread consumer acceptance. Harvey's fine line of Spanish sherries and ports continue to dominate the American market. Gilbey's Canadian Velvet and Gilbey's Crock O'Gold Irish Whiskey show steady improvement.

Food Importing Company

Escoffier Sauces have won wide acceptance since Heublein acquired this line. Virtually all products imported by Heublein show increases for the year. These include Rose's Lime Juice, Perrier Water, Guinness, Bass Ale, Huntley & Palmer's Biscuits, Edouard Artzner Foie Gras, Robertson's Preserves and Ming Teas.

Domestic Food Division

Heublein Domestic Food Division enjoyed another all time high in sales. Cake-Mate Icings and Gels are now in national distribution. Maypo and Maltex Cereals and Grey-Poupon Mustard are gaining acceptance throughout the country as A. 1. Steak Sauce continues as the nation's No. 1 thick sauce.

Famous A. 1. Steak Sauce

This well established product has made great new sales gains in the past year. Increased advertising and merchandising suggesting to the public that A. 1. Steak Sauce is a delicious ingredient in cooking, as well as a pour on, have produced the highest level of sales in the history of this product.

Heublein Cocktails

With the addition of the Scotch Whisky Sour, there are now 11 Ready-to-Serve Heublein Cocktails: Manhattan, Extra Dry Martini, Vodka Sour, Gin Sour, Whiskey Sour, Side Car, Vodka Martini, Daiquiri, Old Fashioned and Stinger. These cocktails are vigorously marketed with a nation-wide advertising campaign stressing quality and the 25 cent a drink theme.

SOMETHING NEW IN HARTFORD

The Company's new headquarters wing at 330 New Park Avenue, Hartford, was completed and occupied during the year, relieving working space pressures for both key executive and administrative people as well as for shipping personnel and facilities.

The building addition made possible the physical reorganization and relocation of the various departments along functional lines, enabling a streamlining of procedures and cohesive departmental groupings.

Much-needed space and additional loading docks were incorporated to provide for increasing shipping-warehousing operations, making it easier and less time-consuming to handle the ever-growing volume of customer-bound Heublein products.

Another outstanding feature of the new wing was inclusion of a bright and cheery self-service cafeteria for the use of all employees.

Installation of an IBM 1401 data processing system was completed in July.

Smirnoff Vodka speeds off modern bottling lines in the main Hartford Plant.
